

# THE BENEFITS OF MULTI-PURE WATER FILTERS

**Effective Water-Filtration Is One Of The Most Important Health Decisions You Can Make  
... for you & your family**

- You will have a filtration system that will reliably protect you from contaminants that can affect your health
- You have a filtration system that will last a life-time
- You only have to replace the filter 1x/year - \$60
- Multi-Pure carries a 25 year warranty
- The Multi-Pure filter will leave in the natural minerals - essential to good health

→ You will have unlimited & safe drinking/cooking water at your fingertips - for your entire family - you will never run out

→ Bottled water will cost you between 85¢ & \$1.70/gall. With the multi-pure, you will have all the water you need for only 8¢/gall

The bottled water industry is largely owned by soft drink companies. Government regulations require no testing for: cbp's, heavy metals, cysts, e.coli, or chemicals.

→ the MultiPure is tested & certified by NSF international for the widest range of contaminant removal of any filter sold in the us, including:

Arsenic (arsenic unit only)

Chlorine

Chloramine

TCE - Trichloroethylene

THM's - Trihalometanes

PCE - Perchloroethylene

Volatile Organic Chemicals (Includes Certification For 41 Chemicals)

CBP's - Chlorinated-By-Products

Heavy Metals - Lead & Mercury

PCB's - Polychlorinated Biphenyls

MTBE - Methyl Tertiary-Butyl Ether

Parasites - Cysts of Giardia & Cryptosporidium

Pesticides - Includes Herbicides & Fungicides

For more information on this filter, or information on issues of water contamination, bottled water, certification for water filtration devices, & safe drinking water, please contact:
